

The Butterfly Club

Tina first gets attention from Miss Lovejoy when she draws a beautiful, creative caterpillar, and later when she draws a book of butterflies. Can you design and colour your own caterpillar and butterfly?

The Butterfly Club

In the book, Tina found herself out of her comfort zone, having to do things without her sisters – but what gave her the strength to keep going was her passion for butterflies and having a goal to work towards to. Remember, her club didn't necessarily have her best friends in it to begin with; Selma became her friend in the process.

If you were to start your own club about something you love, what would it be? Who would you have in the club? Have a think about this below.
